DATE: January 29, 1976

SUBJECT: RECLAIMED METHANOL -
SCIENTIFIC CHEMICALS
PROCESSING CO., INC.

G. T.

FEB 9 1976

Presently, I see no alternative to leaving the current contract in force.

There are no other options available at this time relative to the handling of our waste Methanol-Polyphosphoric mixture.

RE: RECLAIMED METHANOL
SCIENTIFIC CHEMICALS PROCESSING COMPANY, INC

Please note that subject contract with Scientific Chemical terminates July 31, 1976; evergreen provision, however, permits contract to remain in force on a year-to-year basis thereafter.

If you wish to terminate contract with Scientific Chemical, written notification must be submitted to them by no later than April 30, 1976.

Please advise if you wish contract to remain in force or be cancelled.

COMPANY CORRESPONDENCE

FEB 24 1975

TO DIV: Corporate Purchasing FROM DIV: Specialty Chemicals
LOCATION: Morristown LOCATION: Haledon Works
ATT'N OF: Mr. G. Tiplitz DATE: February 21, 1975
SUBJECT: RECLAIMED METHANOL --
SCIENTIFIC CHEMICAL PROCESSING CO.

Because of some unexpected delays in purchasing and operating our own recovery unit on-site, I can see no other course of action except to let this contract renew itself.

The problems we have encountered in setting up our own recovery system for both Methanol and 85% Phosphoric Acid relates to material of construction in the Phosphoric Acid reclamation step. In addition to this problem, this job has also been eliminated from our Capital Budget for 1975, and it does not appear as if we have any other course of action but to renew the contract.
